

We are a clean and friendly environment, and our small facility is generally equipped with everything you might need while away from your own home. We offer electricity for your RV, dry camping, showers, horse stalling, building rental, and an arena. Parking is never a concern, nor is peace and quiet. The kitchen has cooked thousands of meals, and the barns are always ready to house any species. The newest building is just a few steps away from our oldest building. The new building can wear many faces while our 1935, WPA-constructed octagonal log building, better known as the sale pavilion, possesses great character and much history. We love hosting guests and appreciate your business. If we can be of any assistance day or night, please call 406-222-4185.

-Kim Knutson, Fair Manager
