PARK CITY-COUNTY
HEALTH DEPARTMENT

WINTER CHECK IN

As we've welcomed the New Year, we are proud to reflect on the milestones, challenges, and collective achievements in our community and at the Park City-County Health Department. We have continued to navigate the ever-changing landscape of public health and are committed to the well-being of all of Park County. Thank you for your support in 2023 and we look forward to continuing to serve you this year. Keep reading to find out more of what we have been up to!

NEW FACES

This fall, we were thrilled to welcome two new team members: Margaret Elliott, RD as the WIC director, and Scott Konley, MS as our sanitarian. Margaret serves the nearly 200 community members who utilize WIC services. Scott inspects licensed establishments such as food businesses, vacation rentals, and more.

DIAPER DEPOT

In thanks to our sponsors from Community Closet, Park County Community Foundation, and Town Pump, we are proud to offer packs of diapers and wipes each month to any family facing financial hardship. This year, we have given out more than 400 packs of diapers to community members. No appointment is necessary for this service.

WOMEN, INFANTS, & CHILDREN

WIC offers healthy food, breastfeeding support, nutrition tips, and connection to community resources. For more information and eligibility requirements please visit our website or give us a call.

NEEDING CHILD CARE?

Don't qualify for the Best Beginnings Child Care Scholarship? Check out the Gap Child Care Scholarship. It's available for residents of Park County who:

- Are working, in school, or re-entering the workforce
- Have children ages 0-5
- Have an annual household income of \$131,000 or less
- Have a child in licensed childcare facility

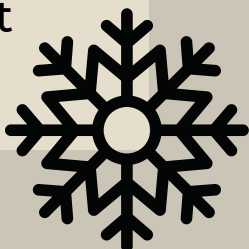

Apply with this link:

BE PREPARED THIS WINTER

We all know winter roads in Montana can be unpredictable. Build an emergency kit for your car to be prepared for any conditions. We suggest this kit includes water and snacks, a blanket, warm clothing like hats and gloves, a portable cell phone charger, a first aid kit, a tow rope, a flashlight, jumper cables, and more. For more information, or to get more ideas on what to add to your car preparedness kit, visit https://www.weather.gov/ilx/winter_drive2_social

IMMUNIZATION

We continue to offer COVID-19 and influenza vaccines by request. Please call our office at 406-222-4145 for any information on immunizations or to schedule a vaccine appointment in our office. We'd love to see you!

STAY CONNECTED

Find additional information or updates on our Facebook page, or our Instagram @parkcountyhealthdepartment. For emergency messaging, sign up for NIXLE alerts by texting your zip code to 888777.

Wishing you health and happiness in 2024.
