

Proposed Judgment and Judgment Fees (Attorneys)- Best Practice Guide

The best practice for submitting a proposed judgment requires the attorney to pay the judgment fee at the time the proposed judgment is submitted in E-Filing. If the judgment does not get signed, contact the clerk's office to have the money refunded.

Upload Document page

- The first document uploaded on the Upload Document page must be the proposed judgment, and the document filing type and subtype must match what was selected on the Create Filing page.
 - Attach the proposed judgment as a MS Word or WordPerfect document.
 - Remove any date or signature line from all proposed documents to be signed by the judge; also remove any footers that will interfere with the court's e-signature block which prints in the bottom right corner.
- Attach any additional documents by clicking the link "Add Another Lead Document," labeling them appropriately. Even a motion, which is typically the first lead document would be attached as an additional lead document to the proposed judgment.

Appendix A – Summary Judgments

When submitting a summary judgment for the judge to sign, do not submit the proposed judgment until the motion is ripe, and the judgment is ready to be signed.

- Submit the Motion for Summary Judgment and wait for it to become ripe.
- Once the Judgment is ready to be signed by the judge, upload it using the above instructions.
